

Free printable · Number recognition · Ages 3 to 6

Match with Wobblin

Wobblin loves a good match. Join each number to its dots or its word, then circle the right number.

What's inside

- 2 number-to-dots matching pages (1 to 5, 6 to 10)
- 2 number-to-word matching pages
- 2 "how many glowing balls?" pages
- A tracker

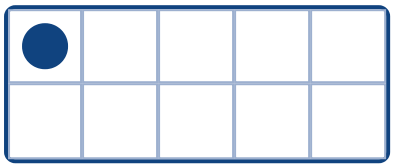

Tips for grown-ups

- Talk about the dots: "Five on top, and two more. Seven!"
- Read the number words aloud. Reading them isn't the goal yet.
- Pointing counts as an answer.
- One page is plenty for most three and four year olds.
