Free personalised storybook · Ages 3 to 7

My Big Adventure

Wobblin floats along on every page to keep your child company and give a little hint for each picture.

How to make the book

1. Print the pages single-sided. Skip this page.
2. Write your child's name on every lilac name line. Older children can do it themselves.
3. Ask the question on each page and write down your child's answer, in their words.
4. Your child draws a picture in each box. Scribbles count!
5. Staple down the left side, or punch holes and tie with ribbon or wool.
6. Read it together, again and again.

Tip for this book

Let your child make the choices: where the map leads, who they meet, what they find. Silly answers are welcome. They make the best stories.

Make it work for your child

- Do one or two pages at a time. A storybook can take a week to make.
- If drawing is hard work, glue in photos, stickers or pictures cut from magazines.
- Children who don't talk much can point to choices you offer, or show you.
